

AFTER YOUR ROOT CANAL TREATMENT

- 1. Please eat soft food only until the permanent filling is done by your general dentist. This should be done in approximately 2 weeks unless otherwise directed. Remember that there is only a temporary filling in the treated tooth. Please call your dentist to book the appointment for the permanent filling. We will send the appropriate information to your dentist.**
- 2. Keep the treated area clean with gentle brushing, flossing and salt water rinsing.**
- 3. Please take 2 or 3 (200mg) Advil with food after your treatment. If you cannot take Advil, then you may take Tylenol or a prescribed pain medication. The Advil may be taken every 6-8 hours as needed.**
- 4. Please make sure to book a 6 month recall appointment with our office**
- 5. If there are any questions or concerns please call (416)-230-3430 (Dr. Delle Donne) or (647)-215-1113 (Dr. Ngo) after hours.**
